- ▶ **Naturally preserved**
 Preserved with Vitamin E and other natural preservatives
- ▶ **Backed by more than 40 years of developing premium diets for exotic animals**
 Highly recommended by leading veterinarians and aviculturalists

Product Characteristics

ZuPreem® Lory Diet Nuggets are small, flower-shaped, extruded nuggets in purple, green, yellow and orange colors. Nuggets contain bananas, apples and grapes ground from fresh fruit for a tropical fruit flavor and aroma.

ZuPreem® Lory Diet Nectar is powdered nectar with a tropical fruit flavor and aroma, and is easily dissolved in water to mimic the nectar these birds eat in the wild.

Shelf-life: One year from date of manufacture.

Lory Diet Nuggets and Lory Diet Nectar

Feeding Instructions

ZuPreem® Lory Diet Nuggets and ZuPreem® Lory Diet Nectar are meant to be a nectar-eating bird's primary source of nutrition. When feeding both diets during a 24-hour period, bird owners can experiment with a feeding plan that best fits their needs. In addition to feeding Lory Nuggets, pet owners can sprinkle the powdered Lory Nectar on fresh fruit or dissolve in water.

When supplementing with fruits, make sure ZuPreem Lory Nuggets and ZuPreem Lory Nectar make up at least 80% of what the bird eats every day. ZuPreem diets have precise levels of important vitamins and minerals, and additional supplements are not required and could be harmful to the bird.

To prevent spoilage, do not leave moistened nuggets or nectar in the cup for long periods of time.

Mixing Directions – Lory Nectar

For best results, add powdered nectar to water and dissolve.
LARGE LORIES – Mix one part Lory Nectar to four parts water.
SMALLER LORIES – Mix one part Lory Nectar to five parts water. Adjust the consistency depending on the bird's particular preference.

Converting to ZuPreem® Lory Nuggets and Lory Nectar

Most birds find ZuPreem Lory Nuggets and Lory Nectar very tasty and convert easily. If the bird has not been eating nuggets, he may be difficult to convert and refuse to eat. If he begins to lose weight, feed ZuPreem Lory Nectar or return to his original food and contact an avian professional. For complete conversion methods, go to www.ZuPreem.com/conversion.

Note – As an indicator of health, always monitor for changes in weight and body condition. Provide adequate amounts of food to maintain good body condition, preventing excessive thinness or obesity.

Always provide clean, fresh water.
